## UMSON Dean's Medal for Distinguished Service 2019

---

John Bing, CRNA, FAAN

*In 2017, Jane Kirschling, the Bill and Joanne Conway Dean of the University of Maryland School of Nursing, established the Dean's Medal for Distinguished Service to recognize individuals, external to the institution, who have demonstrated "an exceptional commitment to advancing the University of Maryland School of Nursing and its mission." That year, the inaugural recipients of the Dean's Medal, Bill and Joanne Conway, were recognized for extraordinary support for nursing education through the Conway Scholars Program.*

Mr. Bing is an outstanding leader and practitioner who has represented nurse anesthesia at the state, national, and international levels. He has tirelessly supported the next generation of nurse anesthetists, with a special focus on nurses of color. He was instrumental in establishing the Nurse Anesthesia program at the University of Maryland School of Nursing. Recognizing the significant need for Certified Registered Nurse Anesthetists (CRNAs) throughout Maryland, he secured the initial grant to open the Nurse Anesthesia program and personally championed its support from the state Legislature and area hospitals.

Since 2008, Mr. Bing has served as the President of the Diversity in Nurse Anesthesia Mentorship Program (DNAMP), which fosters the diversification of CRNA degree programs throughout the United States. The DNAMP offers annual workshops for nurses of color interested in entering nurse anesthesia, drawing as many as 180 participants who network, learn from program directors about admission requirements, and experience simulated education. Mr. Bing serves as a mentor to prospective Nurse Anesthesia program applicants and provides ongoing career support. This fully volunteer effort has resulted in participants being admitted to 52 of the 121 CRNA programs in the United States.

Mr. Bing has also served as a board member of the Maryland State Board of Nursing; the Maryland Association of Nurse Anesthetists, including twice as President; and the American Association of Nurse Anesthetists (AANA). He co-chaired the AANA's Diversity and Inclusion Taskforce, raising awareness among AANA membership about the importance of diversifying the workforce.

Mr. Bing and colleagues have provided medical care to more than 1,000 Central American families whose children were born with a cleft lip/palate. He regularly includes CRNA students in these humanitarian missions, often at his personal expense. He has broadened countless students' understanding of how to provide safe anesthesia care in under-resourced communities, how poverty impacts families' access to health care, and the importance of "giving back."

## DAISY Awards

---

*An acronym for Diseases Attacking the Immune SYstem, The DAISY Foundation was formed in November 1999, by the family of J. Patrick Barnes, who died at age 33 of complications of Idiopathic Thrombocytopenic Purpura. The nursing care Patrick received when hospitalized profoundly touched his family. Cynthia Sweeney, DNP, MSN, BSN '76, RN, CNOR, NEA-BC, serves as vice president of nursing, emerita, for the foundation.*

### DAISY AWARD FOR EXTRAORDINARY NURSING FACULTY

*This award honors faculty who inspire their students to remember that nursing is much more than tasks and technology. They help ensure that the art as well as the science of nursing are brought to every patient experience.*

Amanda Roesch, DNP, MPH, FNP-C

Assistant Professor

awarded December 2020

Roesch is described as passionate about educating the next generation of UMSON advanced practice nurses to provide compassionate care to diverse populations. She weaves her experiences caring for underserved populations both locally and internationally into her teaching strategies. She challenges students to broaden their perspectives with her curricular design. As an ally for the LGBTQ+ community, she is committed to ensuring her students have the knowledge and skills to provide affirming, inclusive care to this population, and she incorporates this in the courses she teaches. Roesch has also collaborated with a community/public health nursing initiative to provide physical exams to children enrolled in Head Start programs. This affords her the opportunity not only to teach Family Nurse Practitioner students to care for the pediatric population, but also to provide culturally sensitive care to a diverse population.

## DAISY AWARD FOR EXTRAORDINARY NURSING STUDENTS

*By recognizing nursing students for their care and compassion for patients and their families, The DAISY Foundation recognizes and celebrates what it means to be a nurse.*

## University System of Maryland Board of Regents Staff Award

Mishawn Smith, MPA, 2019 - 20

Smith was honored for her commitment to diversity and passion for making UMB a better, safer, and more inclusive place for people to work. In her UMSON role, she supports associate dean for diversity and inclusion Jeffrey Ash, EdD, and founded the Booked for Lunch Book Club, where faculty, staff, and students can have honest discussions and review books, literature, and media on diversity, social justice, and professional development. The book club was named one of Insight Into Diversity magazine's 2020 Inspiring Affinity Group Award winners.

In addition, Smith is the chair of Stonewall Pride, a UMB affinity group under the Diversity Advisory Council (DAC) that strives to ensure that LGBTQ+ faculty, staff, students, and visitors feel welcome and have equality, inclusion, and respect. She also is a member of the executive board of GLSEN Maryland, which advocates for LGBTQ students, and volunteers with P-TECH Maryland, a program in which school systems partner with community colleges and businesses to provide students with pathways from high school to college and careers.

"Since her childhood, Mishawn has always been an activist. Her grandmother would always say she should be a lawyer or politician," Ash says. "Mishawn comes from a diverse family and was taught that regardless of background to treat everyone with dignity and respect. Mishawn's mother often referred to her as a change-maker, a young Shirley Chisholm, because of her passion and advocacy for others."

Smith, who worked in UMSOM's Department of Pediatrics from 2011 - 16 before joining UMSON's Dean's Office, says, "I am grateful and honored to receive this prestigious award. Thank you to the Board of Regents, UMB, and my colleagues internal and external who wholeheartedly support me and the work that I do. I am overwhelmed with joy.

"I believe that diversity and inclusion is about meeting people where they are. When you take the time to meet people where they are and truly listen to their needs, you can build relationships that respectfully value one another's experiences and history to grasp a better understanding and acceptance of each other's culture and differences."
